1. Introduction

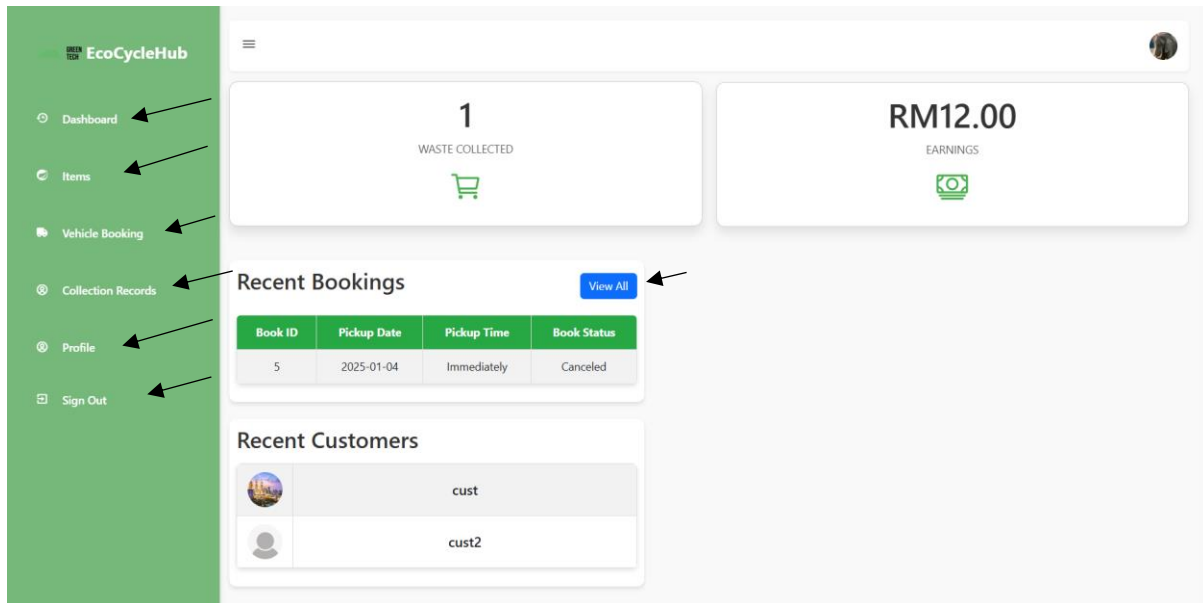

Welcome to the user manual for Eco Cycle Hub, an innovative website designed to make recycling more convenient and rewarding for our customers. Eco Cycle Hub provides a convenient pickup service, where our runners come directly to your doorstep to collect recyclable materials. Our platform not only streamlines recycling but also encourages eco-friendly practices by rewarding customers for the materials they contribute. By utilizing our fair and transparent system, you can easily calculate the value of each recyclable item based on its environmental impact and recyclability. This manual will guide you through the various features of Eco Cycle Hub, helping you maximize your recycling efforts and understand how to make the most of our services. Thank you for joining us in our mission to promote sustainability and responsible waste management!

2. Admin and Staff

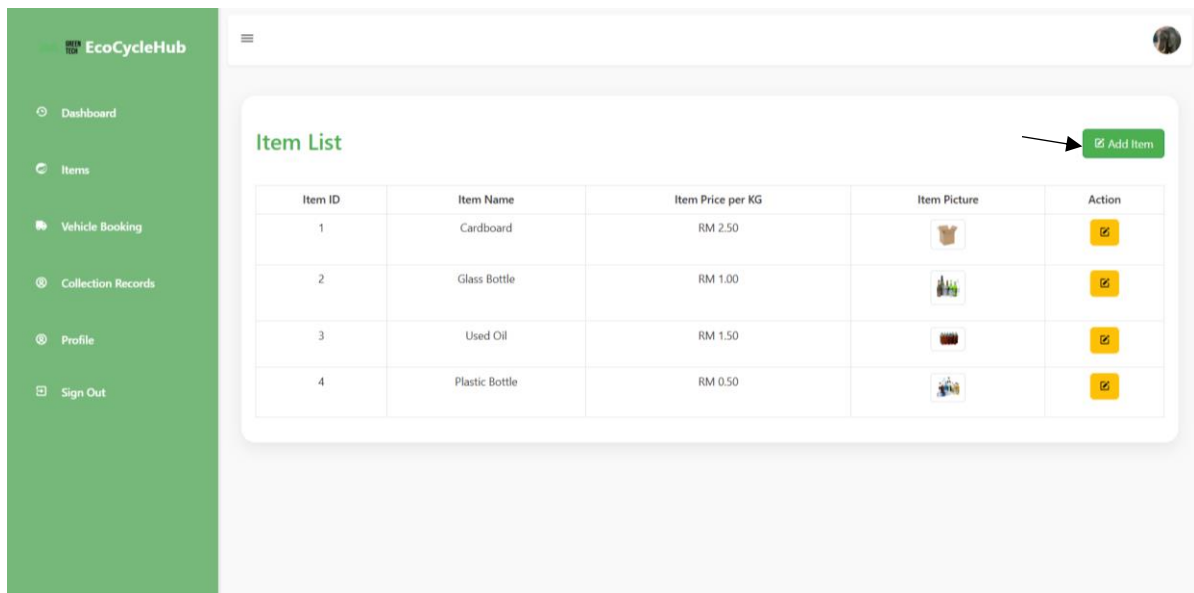

2.1 Admin/Staff Login Page

Enter the admin/staff credentials to access their page. Admins and staffs are predefined in the system.

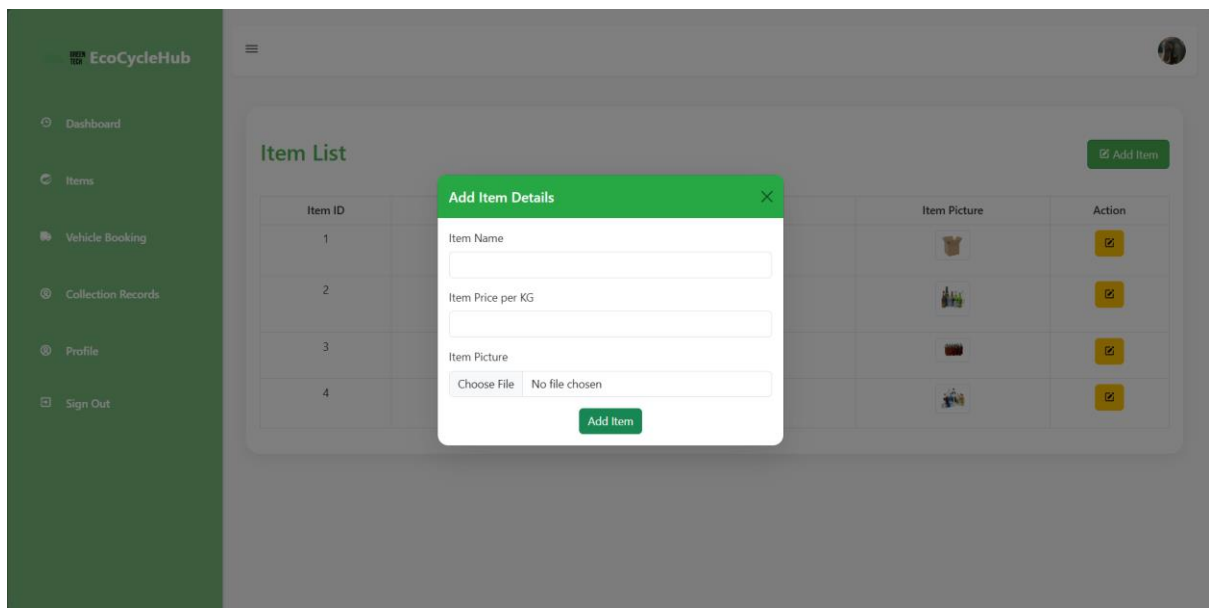

2.2 Admin/Staff Dashboard

After logging in, the system will redirect the admin/staff into their dashboard. The dashboard will have a sidebar bar for each section, but the main thing the dashboard will be displaying are the waste collected, and the earnings gained.

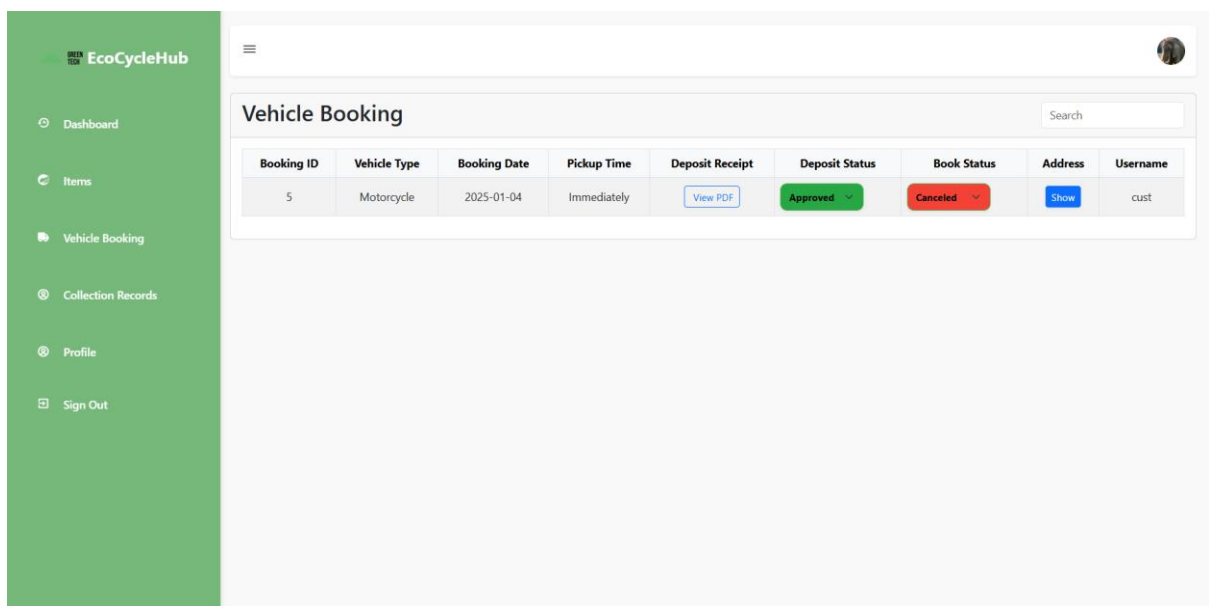

2.3 Item List

The sidebar for items will lead you to an item list display and there is a 'Add Item' button for you to add item based on what kind of items that your recycling centre accepts.

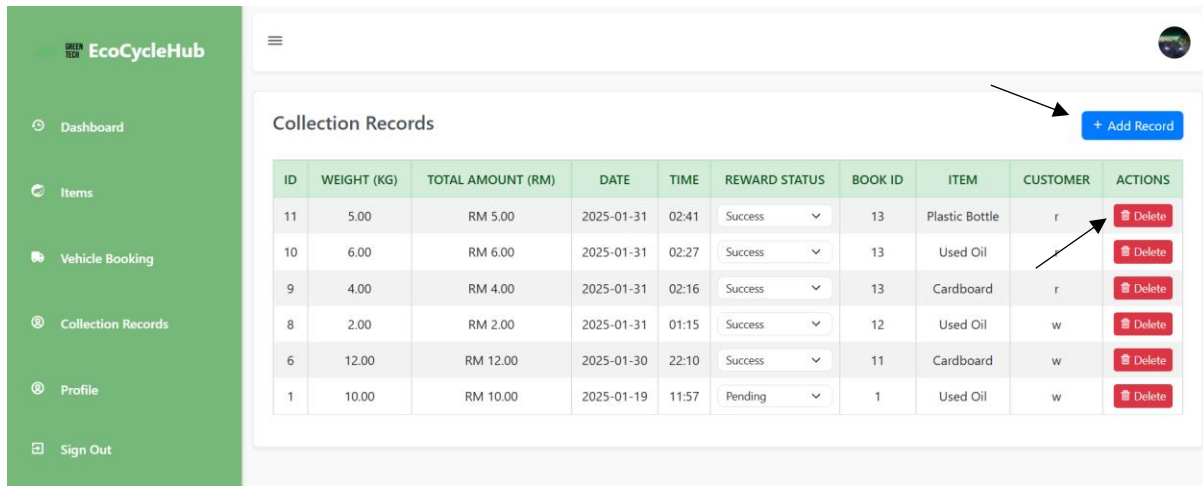

2.4 Add Item

Here you can fill in the details of the items to be added.

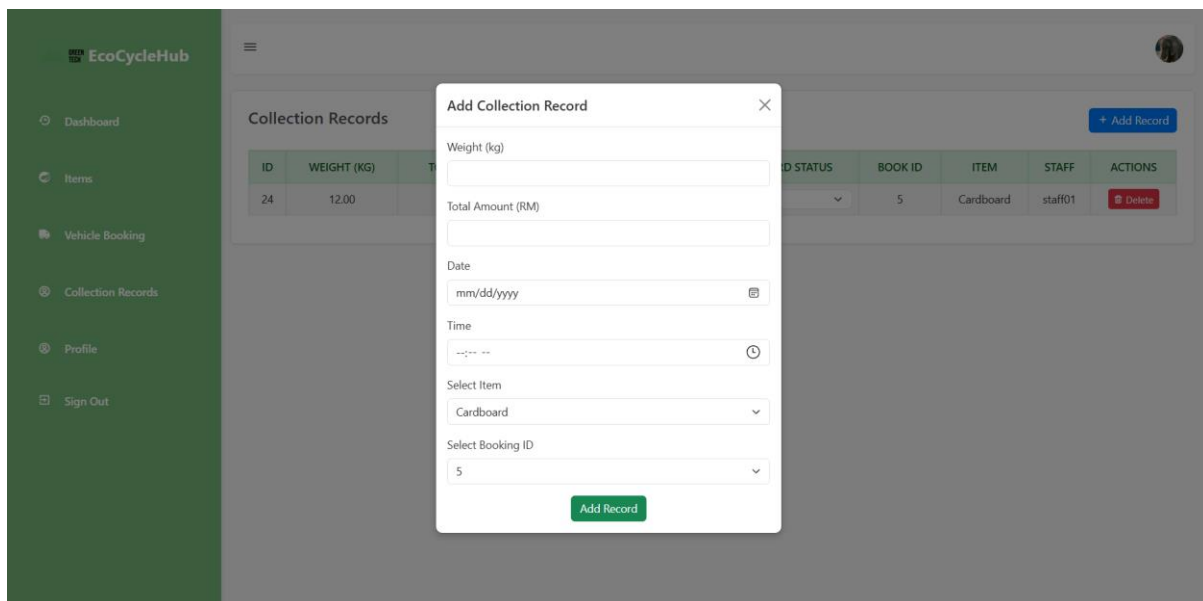

2.5 Vehicle Booking

The sidebar of the **'Vehicle Booking'** will lead you to list of vehicles booked for the items that will be picked up. From here you can check the deposit receipt, change the deposit status and book status based on the receipt, and check the address of the customer.

2.6 Collection Records

The sidebar of the ‘**Collection Records**’ will display a list of collection records; these are the items that will be picked up by our staffs based on the customer's items. There is also a button for the staffs to add and delete the records.

2.7 Add Collection Records

Here the staffs in charge can fill in the details for the collection records.
